Product description

The Bottlelight product is made to illuminate empty wine or Champagne bottles. It gives a comfortable all surrounding light from the inside of the bottle. Power is supplied by three standard or rechargeable NiMH AA batteries which can be easily replaced. The built-in electronics keeps the brightness constant and long lasting.

The Bottlelight can be switched on/off by turning the lid clockwise/anti-clockwise. The light can be adjusted comfortably and simply.

The Bottlelight is water resistant at the bottom part and rain resistant from the top.

Even as the device is water resistant, it must not be put into beverages. The manufacturer does not accept any liability in such cases.

The device must be kept away from children under the age of 3, because of the batteries.
